Thanks. We are preparing a memo (John has seen it) to go out to each of our offices telling them about this incident (and the related ones that occurred the same day) and including some tips on how to handle such confrontations in the future.

Steve/Mark,

I have looked into the demonstration by the ACORN group which occurred on 5/21 at our New York Office (780 3rd Ave). I believe you are well aware of the incident as the office there immediately contacted Mark Palmers group. I will respond to the building management to discuss security issues and to gain a better understanding of the security posture of the facility. If you have any questions or require further follow-up please let me know. - John P.

John

I have just gotten off the phone with the building management for our facility in New York. We were picketed at 780 3rd Ave and the 100 picketeers stormed the lobby. We will accrue some additional costs for added security and apparatntly the local police were not really on top of the deal. He would like us to provide any advance notice if we ever have access to this information. Our office was spared as thet shut down the elevators during the disturbance.

He will be happy to speak with you.

I am on my cell 713.560.7763

Paula
